

Sterling Card is launched in Poland

LOTOS - Air BP Polska adds four Polish airports, Warsaw (WAW), Gdańsk (GDN), Katowice (KTW) and Lublin (LUZ), to the worldwide network of more than 600 airports in 45 countries where the Sterling Card is accepted.

Sterling Card makes purchases of aviation fuel easy – cashless, on the spot and without unnecessary formalities. This offer is addressed to pilots, agents of aircraft handling companies as well as business aviation customers or other *general aviation* customers.

*"Today we are introducing in Poland a service that has for years been very successful with thousands of Air BP customers around the world," stresses **Maciej Kowalski**, President of the Management Board of LOTOS Air BP Polska. "We see growth potential for general aviation sector services in Poland".*

Over the last two decades, Poland has stopped to be a blank spot on the map of airline services in Europe. The network of airline services between Polish regional airports and international airports grows with each year.

*"LOTOS - Air BP Polska offers Jet A-1 fuel in Warsaw, Gdańsk, Katowice and Lublin. In the Lublin airport, we also offer avgas fuel", says **Izabela Brzeska**, LOTOS Air BP Polska's General Aviation Sales Manager.*

Sterling Card gives access to a wide range of conveniences such as the *flight planner* or support from a dedicated customer assistant, which helps pilots to focus their attention on other aspects of a flight. Aviation is not an 8am–4pm business, therefore customers are offered assistance by the Customer Service Office on a 24/7 basis.

Sterling Card in Poland is good news not only for Polish pilots, but also regular customers of Air BP from abroad. Sterling Card users will be served in Poland in the same manner as in other locations of Air BP's network. Customers are supplied with Jet A-1, top quality aviation fuel produced at one of the most advanced refineries in Europe. The fuel produced at the Grupa LOTOS Gdańsk refinery is delivered, among others, to customers in Scandinavia and Germany.

Airports accepting the Sterling Card can be found here: www.airbp.com/wheretofind
